

Ahmed AbdAlmotalb

Benha, Qalyubia, Egypt | 01276219286 | ahmedabdalmotalb10@gmail.com | [Portfolio](#)

PROFESSIONAL SUMMARY

Data analyst with experience turning complex datasets into actionable business insights. Specialized in Power BI with a strong background in regulatory compliance data (RoHS, REACH, TSCA) at z2data. Proven ability to build end-to-end dashboards and reports — from data cleaning and modeling to visualization — across industries including e-commerce, healthcare, and HR. Passionate about improving decision-making through clear, data-driven storytelling.

EXPERIENCE

Senior Environmental Compliance Engineer Oct 2021 – Present

z2data · Benha, Egypt

- Collected, cleaned, and analyzed supplier component data to support regulatory compliance decisions across multiple global markets.
- Evaluated electronic products from 100+ suppliers for compliance with RoHS, REACH, and TSCA regulations, reducing compliance risk for clients.
- Automated repetitive data gathering tasks using Python, improving team efficiency and reducing manual effort.

RF Engineer – Drive Test Oct 2020 – Oct 2021

Telecomax · Cairo, Egypt

- Conducted drive test campaigns across 2G, 3G, and LTE networks to evaluate signal coverage and site performance.
- Diagnosed and resolved RF issues, including dropped calls, blocked calls, cross-feeder faults, and overshooting, improving network quality for end users.
- Analyzed drive test data to generate performance reports and recommend optimization actions to the engineering team.

SKILLS

Analytics & BI: Power BI, Tableau, DAX, Data Modeling, Data Cleaning

Programming & Data: Python, SQL, C, HTML

Tools & Platforms: Excel, Git

Domain Knowledge: RoHS / REACH / TSCA Compliance, RF Testing (2G, 3G, LTE), ISTQB

PROJECTS

- E-commerce Dashboard (BI Project)
- Olympic Games Analysis Dashboard (BI Project)
- Healthcare Analytics Dashboard (BI Project)
- Adventure Works Sales Analysis (BI Project)
- Flight Delays Analysis Dashboard (BI Project)
- Titanic Dashboard (Excel Project)
- Bike Sales Dashboard (Excel Project)
- Scraping data from Amazon (Python)
- COVID Data Exploration (SQL)
- HR Analytics Dashboard (Tableau)
- Translating sign language into spoken language (Embedded System Project)
- Fire System (Embedded System Project)
- Calculator (Embedded System Project)

EDUCATION

Bachelor's Degree in Engineering – Communications & Computer Grade: Very Good
Benha Faculty of Engineering, Egypt

TRAINING & CERTIFICATIONS

Power BI Training Jun 2024

DEPI · Egypt

- Data analysis, Power BI, DAX, and data cleaning for data-driven decision making.

Siemens Automotive Training May 2023

Siemens ·

- Embedded C, data structures, algorithms, computer architecture, interfacing, and communication protocols.

Testing Academy Program Oct 2022

Valeo ·

- Testing concepts, techniques, requirement analysis, and test case generation, applied to a real UPA system case study.
- Introduction to Python with hands-on exercises handling XML and Excel files.

COURSES

- Object-Oriented Data Structures in C++ — Coursera
- Python 3 Programming Specialization — Coursera
- The Complete Flutter Development Bootcamp with Dart — Udemy
- Algorithms and Data Structures
- SQL
- Power BI
- Tableau
